

Student Evaluation of Teaching

Paul Miller

TH 262 H, Musicianship IV: Honors, CRN # 64441

Spring 2006

Please write any comments, ideas, criticisms, or praise in the space below. Your comments will not be read by me until after final grades are submitted:

Student No. 1

I liked this class! The work and class time was enjoyable and very reasonable, and Paul was always extremely knowledgeable and helpful. The end project was also fun to work on and very rewarding in its results (the final presentations). I wish Paul luck in all his future endeavors, and hope to see him again in the future.

Student No. 2

Paul is by far and away the most knowledgeable TA I've ever had. His incredible wealth of knowledge, professionalism, humor, and interest level has earned him the highest level of respect. GREAT job Paul, you're sure to go far. Also an EXCELLENT musician.

Student No. 3

Paul is a great teacher and a general brilliant guy. It has been a wonderful experience being in his class. My only suggestion is that he may consider revising his attendance policy and grading procedures, as it seems as though certain students take advantage of his leniency. Otherwise, he is a fantastic teacher with so much to offer. Thank you Paul!

Student No. 4

I loved this class. The workload was appropriate, the instructor was clear, precise and extremely knowledgeable, and it was just a lot of fun.

Student No. 5

Final project added a great new dimension to the curriculum, despite the fact that it was extra work. I do wish, however, that we had done more late 20th century singing.

Student No. 6

I learned so much from Paul this semester; my concept of atonal music as well as my appreciation has grown so much. Thanks for an outstanding year, and I wish you the best of luck in the future!

Student No. 7

It was great to have you as our aural skills teacher. I think what you have done is great. You are the greatest TA!! Thank you.

Student No. 8

Paul created an encouraging environment for teaching aural skills. He did his best to remove fear from singing in front of others. I really enjoyed this class.

Student No. 9

There's not much to say about Paul except that he'll be a great asset to students and colleagues wherever he goes. His enthusiasm, inviting personality, and impressive base of knowledge were always an inspiration—he taught me a lot.

Student No. 10

Paul was always well prepared, professional, and enthusiastic. Maybe slightly less time could have been spent on trichord/tetrachord ID in order to make more time for other things.

Student No. 11

Paul is really a very very good teacher, for me. I can easily understand what he's teaching and I think his class is kind of interesting. He always has a way to make people laugh.
